- Transmitter
- 4 silent wheels
- OPS (i5,11th,DDR4 8G,256G SSD)

Structure

Shortcut Buttons

Dimensions

L * W * H (mm):

Down: 800 * 490 * 780 (±20mm)

Up: 800 * 490 * 1080 (±20mm)

Highlights

Annotation

Annotation made easy! With built-in hardware annotation, there's no need to navigate through various software options, saving valuable time for teachers.

Silent Up / Down

Easily adjust the height with touch button controls, ranging from 0 to 300mm.

Move Freely

Equipped with a wireless gooseneck microphone and wireless screen projection function, enabling unrestricted movement without the hassle of wires.

Dual Power Supply

Utilize either an external power supply or the built-in battery, providing flexibility. The battery can sustain operation for up to one hour.

Original Signal Integrity

Incorporate an ultra-thin OPS Host at the base, ensuring HDMI and USB signals directly from the OPS host to prevent potential signal degradation from external sources.

Wireless Charging

Effortlessly charge your phone by simply placing it in position, requiring no additional steps.

Application

Small Conference Room

Large Conference Room
