

LCD Video Wall

55" 1.8mm

TPS-11-18

LCD VIDEO WALL

Our comprehensive professional LCD video wall solution is ideal for meeting the rigorous demands of advertising display, central monitoring, and other similar requirements.

55" Ultra-Thin LCD Video Wall Unit

FEATURES

- Experience unrivalled picture quality with a Full HD resolution of 1920*1080, delivering the highest-performing uniform brightness and color across each display.
- The contrast ratios and high brightness ensure consistent, crystal-clear picture quality and a vivid colour presentation, making every image pop with vibrancy and detail.
- With standard tiled bezel widths of 3.5mm between adjacent LCD displays, and the smallest width being only 1.7mm, our video wall offers sleek and uninterrupted visuals.
- Our video wall is slim and easily configurable, making it adaptable to your unique business needs, while also boasting a wall mount that is simple to install and adjust as needed.
